The FSI Commercial Delivery Series gives you the performance and reliability of a fully hydraulic driven delivery box.

- Available in six truck mount units ranging from 760 cu. ft. to 1235 cu. ft. and six semi-trailer units ranging from 1425 cu. ft. to 1900 cu. ft.
- Three sets of WR78B super heavy floor chain.
- Dual direction standard reversing floor and hydraulic tailgate for hauling green chop from the field or silage from the pit to the commodity area.
- Triple feed beater is uniquely configured to provide aerated feed delivery to beef or dairy promoting increased intake while minimizing any feed weigh back.
- Ez-Adjust floor take-ups. Adjust floor chain tension with a grease gun. Three grease fittings used to tension the three sets of floor chain. All floor chain bearings are proven, long lasting Babbitt bearings.
- Removable discharge provides ease of maintenance as well as convenient conversion from chain and slat to belt.
- Hydraulic tailgate. When closed, it covers the floor chain take-ups. The tailgate opens to almost 90 degrees and is opened by twin hydraulic cylinders. Positive locking system keeps it closed. In-cab control panel for both reversing the floor and opening tailgate.
- Delivers feed or stockpiles commodities.

Beaters shown are configured for bedding free-stalls.

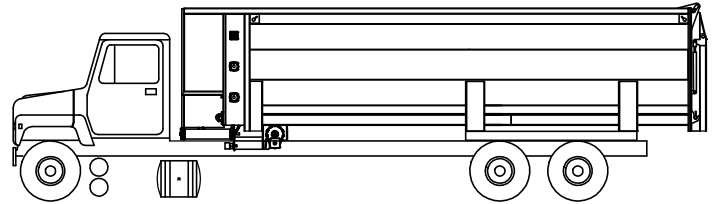

Commercial Feeder Box

Truck or semi-trailer.

Semi-Trailer

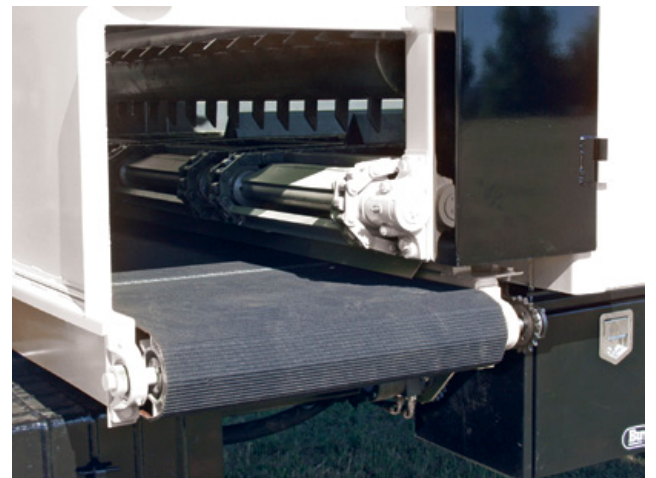

CFB-20

Hydraulic Access

Rear Discharge - tailgate opens with two hydraulic cylinders to near 90 degrees.

Side Discharge - available with belt, chain & slat, or auger option.

Model	Unit Length	Ft ³ Capacity
Truck Mount
