Commercial Series

The best way to deliver
premixed feed.

Patent
Pending

Commercial Series Feeders 1200-20 shown
620 to 1200 cu. ft.

Designed with commercial cattle feeders in mind, this rugged unit uses two 30" diameter low speed augers in the bottom, bringing the feed forward without a boiling action to two cross augers. The cross augers then move the feed to the discharge conveyor for fast, efficient and even feed delivery. With ROTO-MIX, there are no high wear, high maintenance and high cost floor chains.
